

Nucleic Acids Research

Author Checklist

All co-authors listed on ScholarOne Manuscripts (with **valid** email addresses)

New Manuscripts:

- A single PDF file including text, tables and figures is acceptable
- Separate supplementary File(s): preferably a single PDF file

Revised Manuscripts

- Main text **NOT** in PDF format
- Marked revisions
- Individual Figure files: **editable** PDF, png, tif or eps format, 300dpi for colour figures, 600dpi for black & white line drawings
- Separate supplementary File(s): preferably a single PDF file. **NO** marked revisions

ALL Submissions: manuscript sections in the correct order

- Title page (listing all authors, corresponding authors and affiliations)
- Abstract
- Introduction
- Material & Methods
- Results*
- Discussion*
- Data Availability (if applicable, see below)
- Supplementary Data statement (if applicable)
- Funding
- Conflict of Interest (if applicable)
- Acknowledgements (if applicable)
- References (see below)
- Figures and Tables captions

*Results and Discussion can be combined

Data: Please read our [data deposition](#) guidelines

- Upload the required files as 'dataset' files and/or provide links and accession numbers in the manuscript under 'Data Availability', including private tokens/login for referees if needed

References:

- Follow NAR style
- All authors listed
- Full titles provided for all references in reference list
- References cited in the text by sequential number only, in order of appearance, and listed numerically in the reference list
- **No URLs** in reference list
- Are all the databases and data sources used cited in the list of references?

Supplementary Material:

- Not included in the main text file but saved as a separate file, including captions and legends
- Consolidated into a single PDF file, if possible
- No highlighted revisions, even for revised/resubmitted manuscripts
